My College Days...

Colleges are supposed to give us degrees,
But mine, gave me experience,
Oh yes! And that degree too.
I was blamed for choosing a college that was
Located at a rural set up,
They asked me if I could ever get my degree
Validated in front my relatives
Who were by that time, bragging about joining their daughters
in colleges where big shot people studied in.
I admit, life was a little extra messy,
With all the judgments,
And that one million dollar question, “Why here?”
There were nights and days,
When I would also wonder “Why here?”
Safely grown surrounded by mom's arms for 18 years,
And then bam! I was here, in Kilakarai,
Thassim Beevi Abdul Kader College for Women, 623517
Let me share a little closure that I got,
Not necessary that the one reading this piece of writing has to
imbed to it though,
I was a person who used to see situation in a story,
But this place, my friend has taught me to see a story in every
situation.
The place has given me so many memories (good and bad of
course)
But you know what? In the end, all that counts is what you got
as take away.
So, in the last day of my college life,
I did have an answer to that one million dollar question, “Why
here?”
Well, Why not here?
Trust me people, no matter how much we hate being here,
One day when we are all out,
We'd miss the “US” in US.
So before its really too late,
Try loving a little about our college.

“Relishing the Reminiscence”

Mariyam Aysha Bivi MCA M Phil
Lecturer
Department of Computer Science
King Khalid University
Saudi Arabia, Abha
Batch: 1994-1997(B Sc CS)

Life is a wonderful gift, especially when you can look back on it!

I am Mrs Mariyam Aysha Bivi MCA M Phil., working as a lecturer in the Department of Computer Science at King Khalid University, Saudi Arabia, Abha, since September 2007.

From 2000 to 2007, I worked at Justice Basheer Ahmed Sayeed College for Women, as a Senior Scale Lecturer, also worked as a part time lecturer in University of Madras from 2000-2007, Academic Counsellor in Indira Gandhi National Open University from 2002 – 2007 and as a Guest Lecturer in Bharathi Women's College in 2002.

I received B Sc Computer Science degree from Thassim Beevi Abdul Kader College for Women (Madurai Kamaraj University) in 1997, and MCA from Madras University in 2000 and M Phil (Computer Science) from Periyar University in 2005. I have published many technical papers in journals and conferences.

My college life in TBAK is a beautiful panorama of enjoyment, a bunch of memories which I cherish for my lifetime. It is altogether an adventure, it's the best part of my life, it's actually difficult to describe my college life in a small part here but I will try my level best.

By Birth, I am from Kilakarai, North Street, belongs to P.K.S Family but I stayed in hostel as my parents were in Chennai. My humble thanks to Our Founder, Alhaj Dr B S Abdur Rahman and Thaikka Vaapa who gave me the chance to study in TBAK as a hostelite.

According to me hostel life plays an important role in developing the personality of a student. My hostel Life in TBAK developed self-confident, self-dependent, sense of responsibility in me.

One best part of my life was at TBAK, it may seem like an exaggeration but in indeed “TBAK IS THE LAND OF OPPORTUNITIES”, we just need to pick up, practice with heart out and see how that skills stick with us in our life. There's something for everyone here. All that is required to excel is 'Will and Dedication'.

Our Principal, Dr Sumayaa is my role model that from muslim community we can achieve many more and we can contribute the best to the mankind which is 'Education'. I learnt perfection, hardworking and caring towards students from Ms Gowri, which helps me a lot in my teaching career.

As students, we were not only confined ourselves to bookish knowledge but also followed the practical approach of learning and participated in extracurricular and co-curricular activities. Our respected Principal Dr Sumayaa and our beloved teachers Dr Nadira Kamal, Ms Gowri, Mrs Ezhil, Mrs Krishnaveni, Mrs Paul Ramani and many more lovely teachers of TBAK were very conscious about the society on par with career and they strongly believed that some responsibilities which can be fulfilled by the students to the society.

Another life lesson, which I learnt from TBAK is – “THE LEARNING NEVER ENDS”.
